Fast Ease of use Simple User-friendly Compact Open-source Source Slide to select source language Drop down list to choose source language Result Slide to select target language Drop down list to choose target language No problem Punctuation marks ignored Results not displayed correctly Conclusion It is a decent software that does translate quite well even though it can be a bit too messy to use at times. It's a good translation software, i've downloaded it on my iPhone, the translate is correct and quick, however it's not complete with the punctuation marks. Let me show you how to use my new app. Imagine you have the following two columns : 1. Hello, I'm from {FRENCH COUNTRY} 2. I'm from {FRENCH COUNTRY} With the mouse pointer over the second word, you can see the translation on the first one. The second one is always in English. Also, i can see how to set the language for the app and how to reload the translation. What's your opinion? It's a very great program for translating and translating. But I must criticize the little thing about this: The translation isn't reliable. I'm a teacher and I sometimes need to translate texts on my screen, but with this translation program I'm in big trouble. And of course I wouldn't like to choose between my lecturers: If i choose one, and the other one says "Oh, I didn't understand anything." But on the other hand, this translation program is very convenient because there is a lot of languages. I can do my lessons faster, and it's very interesting to translate simple sentences. I don't think it's a translator but a simple dictionary with a little help of speech recognition. So, when you want to translate something, you say the thing you want to translate and the program will show you all the translations you can choose from the dropdown. Sometimes, the results are funny and not always correct. So, you have to try and be a bit careful with what you say. It has some bugs and I hope that the program will be improved. I love this program, I can use it at work for translating phone numbers from french to english and vice-versa. However, the
