Blizzard Entertainment was founded by Andrey "Alex" Baranov and Ian Coile in 1996 in San Francisco, California, in part as a way to personalize the World of Warcraft experience for the player. The company is based in Irvine, California, near the Irvine Spectrum. The original Warcraft trilogy and other Blizzard games are set in a fictional world known as Azeroth,[4] which is separated from the real world of our universe by a portal called the "Blizzak" using the "Blizzard Dimension" which is also known as "World of Warcraft" to the players.[5][6] The portal is controlled by The Burning Legion, an enemy of the Horde and the Alliance, which is the villain of Warcraft, Warcraft 2, Warcraft 3, StarCraft, Diablo, and Starcraft 2, the later two of which are out of chronological order of the other games. The games have featured many Warcraft characters and creatures as well as other fictional characters from the Lord of the Rings Trilogy, Buffy the Vampire Slayer, Harry Potter, Doom, Everquest, as well as adaptations of comic book characters from the Marvel Universe. The company was initially named World of Warcraft Entertainment, but it was renamed Blizzard Entertainment, Inc., to match their comic book and other characters. The company's first product was not a video game but the World of Warcraft: Auction house. After releasing the game, the company was successful, and in June 2000,[citation needed] the company moved to Irvine, California, and grew from six to sixty employees. Today, the company employs over 3,000 people. Blizzard launched three major expansions to the World of Warcraft, called The Burning Crusade, Wrath of the Lich King, and Cataclysm. World of Warcraft was originally developed for Windows, but has now been ported to several operating systems, including the macOS, Xbox 360, and Linux.[7] The company has published other games including the massively multiplayer online role-playing game, Diablo III and the real-time strategy games, StarCraft II, Heroes of the Storm, Hearthstone, Overwatch and Heroes of the Storm. They have also released many free online games, including Free-to-Play browser games and offline games such as Neverwinter Nights, the World of Warcraft Animated Trilogy and Diablo III: Reaper of Souls. Starting in 2010, Blizzard Entertainment has released a number of mobile games for smartphones, including the free-to-play iOS game, Achron, the card game Hearthstone, the real
